OVERVIEW

Possess strong technical expertise in Networking, Cloud, and Cybersecurity. Eager to contribute to a dynamic work environment while securing a role at a leading networking company. Committed to leveraging my skills and proactive attitude to support the company's goals and mission.

WORK EXPERIENCE

INFORMATION TECHNOLOGY ENGINEER (CONTRACT)

August 2022

CTC Global

- Served as a Desktop Support Engineer, providing troubleshooting and system maintenance for end-users.
- Assisted in managing the "Tech Refresh" service project, ensuring the smooth deployment and transition of IT systems.
- Supported the coordination and execution of IT service projects, contributing to the seamless operations of the IT infrastructure.

INFORMATION TECHNOLOGY ENGINEER

March 2021 –

Shimano

August 2021

- Developed and implemented a cybersecurity awareness program, educating employees at local and international factories on preventing cyber threats.
- Provided IT support, monitoring, and maintaining the computer systems and network infrastructure to ensure operational continuity.
- Played an integral role in managing IT service projects, focusing on successful implementation and timely issue resolution.
- Led patching and vulnerability management efforts to secure company systems and minimize potential risks.
- Responded promptly to service issues and requests, ensuring minimal downtime and improved user satisfaction.

EMERGENCY MEDICAL TECHNICIAN

February 2017 –

Singapore Civil Defence Force (SCDF)

February 2019

- Assisted paramedics in emergency medical situations, providing life-saving interventions and support.
- Trained and mentored new emergency medical technicians, ensuring high standards of care and response readiness.
- Delivered rapid response to emergency calls, contributing to effective and efficient emergency medical service operations.

EDUCATION

Bachelor of Engineering with Honours in Information and Communications Technology majoring in Information Security

September 2023 –
Present

Singapore Institute of Technology (SIT) 

DIPLOMA IN INFORMATION TECHNOLOGY

April 2019 – May 2022

Ngee Ann Polytechnic 

NITEC IN INFORMATION TECHNOLOGY NETWORK AND SYSTEM ADMINISTRATION

January 2015 –
January 2017

Institute of Technical Education West (ITE West) 

SKILLS

Rapid Learner

Quickly adapts to new technologies and systems.

IT & Software Support

Proficient in troubleshooting hardware/software issues and providing end-user support.

Microsoft Office Suite

Advanced knowledge of Word, Excel, PowerPoint, Outlook, and Access.

Networking & IT Infrastructure

Understanding of networking concepts, cloud systems, and cybersecurity protocols.

Technical Problem Solving

Strong ability to diagnose issues and implement effective solutions in IT environments.

Cybersecurity Awareness

Knowledge of best practices for securing systems and mitigating vulnerabilities.

PAST CERTIFICATIONS

CISCO CERTIFIED NETWORK ASSOCIATE (CCNA)

Cisco

EC-COUNCIL CERTIFIED ETHICAL HACKER

EC-Council

PROJECTS

A Web-Based Cybersecurity Simulator for Digital Manufacturing (CyberForge)

CyberForge is a web-based cybersecurity simulation platform developed to enhance cyber awareness and incident response training in digital manufacturing environments.

May 2025 –
November 2025

Insect Recognition Software + LLM Chatbot

Assist farmers in identifying the types of insects they encounter, even without internet access, by allowing them to upload an image of the insect and seek guidance from the chatbot based on the specific farm type and insect.

August 2025 –
August 2025
